

Oral Evaluation and Fluoride Varnish Supplies

Supplies

Unit dose of fluoride varnish – There is limited evidence available to support current commercially available fluoride varnish formulations. The chart below highlights 4 different commercially available fluoride varnish options. Please note that pricing is an estimate and could vary or change at any time due to market conditions and product availability.

Flecta disposable mouth mirrors

Finger splints (optional)

2x2 gauze squares for drying teeth

Appropriate Personal Protective Equipment – at a minimum should include a face mask, eye protection to include goggles or protective eyewear with solid side shields, a surgical mask, and gloves. Visit the CDC [website](#) for up-to-date recommendations.
